### Read the passage below and answer questions 26 to 38.

What a Saturday evening after a day full of fun - filled activities! I dashed into our house and quickly took a bath. I put on my evening clothes ready to watch a movie. Since my mother disliked wastage of time, she started preparing the popcorn very early. And because we were not fortunate to afford a popcorn maker, we used a sufuria. I quickly found the popcorn seeds, some oil and a lid. My mother put the oil and switched the cooker on. She let it warm and put in the popcorn seeds. Mother quickly covered it and we waited as patiently as Job for them to pop.

**Within no time**, they were ready. Mother went and switched off the cooker. She swiftly removed the popped corn and put them into different bowls. As I knew mother was very forgetful, I thought she had not switched one cooker off. And because day by day she was getting older, and I remembered my English teacher Mrs Imelda Wanga saying that as you grow older you get wiser, I believed that she had switched it off. We clung to our bowls as we dashed to the living room.

I was eager to watch the movie titled "A Nightmare Before Christmas" It was the latest release by my favourite actress, Selina. I tucked myself into my favourite couch using my blue cotton blanket. I was now ready to watch it. The movie was very interesting. But the problem was that it was moving too fast; it was already halfway. Out of the blue, we heard a knock on the door. My nosey brother rushed **to answer the door**. It was my father who was from the gym. He looked very tired, so I rushed to get him some water.

I put my finger on the switch and pressed it down. The room was filled with flames of fire! I rushed out shouting and screaming Fire! Fire! Help! Everyone who was in the house heard me and started running for their lives. Our neighbours were alarmed on hearing the noises. We reached outside and everyone was wondering what had happened and we explained. My mother's friend, who was our immediate neighbour, called the firefighters.

They responded that they would be there very soon. In the blink of an eye, we heard the wail of the siren. It was the fire truck with an ambulance in tow. They entered the six-storied building in the nick of time. They did what they could to make sure nothing was burnt, but the fire had spread too quickly. I thought of my favourite doll, Smoby. It was a very hard situation but we had to bear the loss.

They were soon done. They demanded money, but most of it had been under the bed and had been burnt. We had to give them the little money we had and that was it.

26. What do we learn about that Saturday from the first sentence? It was

## Read the passage below and then answer questions 39 to 50.

Ocean pollution has become a serious environmental concern that has put the life of fish and other marine creatures in danger. Environmentalists are worried that if the pollution is not controlled, there will be more plastic than fish in the ocean by the year 2050.

To mark this year's World Oceans Day on June eighth, young learners **converged** at Village Market under the sea playground to learn about environmental pollution and conservation. The theme for this year's celebration was "Together for Oceans." The young learners assembled at a play area where they were familiarized with environmental conservation. A team from Worldwide Fund for Nature (WWF-Kenya) facilitated the learning session. The three R's of conservation; Reduce, Reuse, Recycle were highlighted during the session.

Bethel Yimbo, a Grade Two pupil at New light School in Nairobi said that she learnt that plastic materials are the major ocean pollution and are harmful to fish which often eat them mistaking them for food.

"We have been taught to clean up litter on the ground and not to litter everywhere, recycle plastic waste and always use reusable water bottle," Bethel told our journalists. We should avoid littering. I shall remember not to throw away plastics carelessly because it can hurt the environment.

Participants got an opportunity to use flip-flops and bits of plastic to create art in shapes of sea animals, toys and so much more. This session was aimed at creating a platform for the children to know more about marine life and its conservation. "We wanted them to learn that some of the things they usually throw away can be useful in other ways when recycled. We gave them pieces of flip-flops and plastics to make different useful items. We allowed them to carry their creations back home," the teacher said.

The biggest goal is to create environment conscious champions at a tender age who will take the lessons to their homes and other places. We cannot talk about the environment without mentioning trees, other plants and animals. For human beings to be safe, they have to put their greed for money aside and take good care of the environment. We must not cut down trees for whatever purpose and if we must, then we have to plant two in the place of the one we have felled.

The killing of animals for their tusks, skins and wild meat should also come to an end. Animals are part of our heritage. Our future generation entirely depends on their survival. Besides attracting tourists who earn the country foreign exchange, they are beautiful to look at. Indigenous trees play a bigger role in terms of medicine. Their medicinal value helps in curing some of the illnesses that affect human beings.

Walijua kuwa **bidii huleta faida**. Baba wa Matatizo, mzee Jikaze, aliendelea na biashara yake hadi alipofungua kibanda kidogo cha samaki pale mjini Mumias. Sasa Mzee Jikaze aliendeleza biashara yake ufuoni pa bahari huku mkewe naye akiuza kibandani pale mjini Mumias.

Matatizo alisomea katika shule ya umma karibu na mji wa Mumias. Kwa sababu ya uchache wa pesa, Matatizo hakuwa na viatu wala vitabu vyote vilivyohitajika. Kila asubuhi na jioni, alivumilia uchungu wa kudungwa na mawe pale barabarani alipoenda au kutoka shuleni. Alifahamu kuwa mvumilivu hula mbivu. Wanafunzi wenzake walipochezacheza darasani, yeye aliwaomba wenzake vitabu na kujisomea kwa uangalifu. Hakupoteza muda akiyafanya mambo yasiyofaa.

Matatizo pia alikuwa mwenye heshima na nidhamu kwa kila mtu. Aliwaheshimu wakubwa kwa wadogo. Wazazi na walimu walimtumia kuwa mfano kwa watoto na wanafunzi wao. Kila mara alijizolea tuzo na zawadi za mwanafunzi bora katika usafi na nidhamu. Masomoni hakuachwa nyuma, daima alikuwa miongoni mwa wanafunzi watano wa kwanza katika mtihani. Alipomaliza masomo ya shule ya msingi, alifadhiliwa na benki moja ambayo iliwadhamini wanafunzi werevu kutoka katika familia maskini. Matatizo aliendelea kusoma na kuwaheshimu wenzake. Aidha, alianza kuibuka kuwa mwanasoka maarufu sana.

Darasani alikizika kichwa chake vitabuni kama mwanasheria atafutaye neno la ushindi katika kesi. Wakati wa alasiri, Matatizo alikuwa uwanjani na wanasoka wenzake. Walicheza kwa kushirikiana kama kiko na digali. Walielewa kuwa umoja ni nguvu utengano ni udhaifu. Licha ya kufaulu katika mtihani wa kidato cha nne, Matatizo pia aliteuliwa katika timu ya taifa ya wachezaji wasiozidi umri wa miaka ishirini. Katika chuo kikuu alisomea udaktari huku akiendeleza talanta yake ya kusakata kabumbu.

Ama kwa hakika, Mola hamwachi mja wake. Mtoto wa watu aliajiriwa kuwa daktari katika hospitali kuu ya mji wa Mumias. Kila alipopata nafasi, alienda uwanjani kufanya mazoezi na kusakata kandanda na wenzake. Matatizo hakuwasahau wazazi wake, alihakikisha kuwa wameishi maisha ya raha na starehe. Pia alifungua hospitali ya kuwasaidia wanawake wajawazito kujifungua na kuyatibu magonjwa ya watoto wachanga. Hayakuishia hapo. Matatizo ndiye aliyefungua kituo cha kwanza nchini cha kukuza talanta za vijana. Maisha ya Matatizo hutumika kuwatia moyo watu wengi wanaopitia matatizo.

Wazazi wengi wanaichukulia michezo ya watoto kama shughuli isiyo na maana. Kimsingi, ipo imani inayojengeka kuwa kucheza ni kupoteza muda. Matokeo yake ni kuwa wazazi hujitahidi kuwazuia watoto wasicheze kwa matumaini ya kuwasaidia wapate muda wa kufanya mambo ya maana zaidi kama vile kusoma na kukamilisha kazi za kiada na ziada. Pamoja na umuhimu wa kufanya hivyo, hata hivyo, michezo inabaki kuwa shughuli yenye umuhimu mkubwa katika ukuaji wa jumla wa mtoto kimaarifa, kimahusiano, kimwili na kihisia. Michezo ni shughuli zisizo rasmi anazozifanya mtoto kwa lengo la kufurahi na kuburudika. Michezo hiyo ni kama vile kubembea, kuteleza, kuogelea na kadhalika.

Awali ya yote, kukua kiakili kwa mtoto hutegemea kwa kiasi kikubwa namna anavyoweza kucheza. Kwa kawaida, mtoto hujulikana iwapo yu timamu baada ya kuzaliwa kwa kuangalia kiwango chake cha kushughulisha viungo vya mwili wake. Kupitia michezo, mtoto hutumia akili kujifunza namna ya kutatua changamoto zinazomkabili. Mathalani, anapojifunza kuruka kamba, inabidi aelewe namna ya kutua kwa miguu yake inavyotakiwa kupishana na kamba inayopita chini. Zoezi kama hili, mbali na kumsaidia kuchangamsha viungo vyake, pia linamkuza kiufahamu.

Kucheza pia kunamhitaji mtoto atumie viungo vya mwili. Ili acheze '**rede**', kwa mfano, ni lazima aruke, akimbie kukwepa au kuufuata mpira, lazima atumie mikono yake kujaza mchanga kwenye chupa na vitendo vingine vinavyofanyika kwa haraka, ambavyo kwa kweli ni kufanya mazoezi ya mwili. Tafiti nyingi zimeonesha namna kutocheza kunakokwenda sambamba na utazamaji wa televisheni kunavyoweza, kwa kiasi kikubwa, kuchangia kuongeza tatizo la uzito mkubwa wa mwili kwa watoto. Kucheza ni hatua ya kukabiliana na tatizo hili na kunasaidia kupunguza uwezekano wa magonjwa yanayosababishwa na kukosa mazoezi. Ili iwe na msaada, hata hivyo michezo hiyo ni muhimu ihusishe kwa kiasi kikubwa viungo vya mwili.

Michezo ni mawasiliano. Ili waweze kucheza vizuri, watoto hulazimika kujadiliana mambo ya msingi kama aina ya mchezo utakaochezwa, jukumu la kila mmoja, kanuni zitakazoongoza mchezo na kadhalika. Aidha, ni kawaida watoto kupenda kuimba, kueleweshana, kuhojiana na hata kujieleza pale kanuni zilizowekwa zinapovunjwa na mmoja wao. Haya yote huwasaidia kujifunza wenzao wanavyoongea, wanavyotumia maneno, wanavyojieleza pale wanapokosea na hivyo kukuza uwezo wao wa kuelewa kanuni za lugha.

**Kucheza hujenga uwezo wa watoto kushirikiana**, kufanya kazi pamoja, kufanya maamuzi yanayokubalika na pande zote, kutatua migogoro na wakati mwingine kujifunza kukosa kile wanachokitamani. Haya ni maeneo muhimu yanayokuza uwezo wa kujenga maelewano. Kwa kawaida, si kila kanuni inayoongoza mchezo hukubaliwa na watoto wote. Mazingira hayo huhitaji uwezo wa kushawishi wengine lakini pia huwa ni fursa ya kumfundisha mtoto kujifunza kuyaona mambo kwa macho ya wengine.

41. Aya ya kwanza inaeleza kuwa:
    A. michezo ya watoto ni shughuli isiyo na maana
    B. wazazi wengi wanaichukulia michezo ya watoto kuwa shughuli ya maana

    B. michezo inayohusisha viungo vya mwili si muhimu
    C. michezo huweza kuimarisha afya

D. michezo huongeza uwezekano wa kupata magonjwa.

46. **'Kucheza hujenga uwezo wa watoto kushirikiana'** Ni methali gani inayoafikiana na kauli hii?
    A. Baada ya dhiki ni faraja.
    B. Mtoto umleavyo ndivyo akuavyo.
    C. Umoja ni nguvu utengano ni udhaifu.
    D. Mchezea tope humrukia.

47. Aya ya mwisho inaeleza kuwa michezo huwasaidia watoto kufanya nini?
    A. Kujifunza kutamani walichokikosa.
    B. Kuharibu uwezo wa kujenga maelewano.
    C. Kuyaona mambo kwa macho yao.
    D. Kujifunza kukosa kile wanachokitamani.

48. Aya ya nne inaeleza kuwa michezo;
    A. husaidia mawasiliano ya mtoto
    B. hujenga mwili wa mtoto
    C. husaidia akili ya mtoto
    D. hujenga uchumi wa mtoto.

49. Yawezekana kuwa mtoto ambaye hachezi;
    A. atakuwa na afya bora
    B. atakumbwa na matatizo mbalimbali
    C. atafanya vizuri sana masomoni
    D. atakuwa na marafiki wengine sana.

50. Kwa mujibu wa kufungu, **si** kweli kuwa
    A. wazazi wanafaa kuwaruhusu watoto wacheze
    B. michezo huweza kuleta amani kati ya watoto
    C. michezo ina faida nyingi
    D. watoto wanafaa kucheza wakati wote.

## READ THESE INSTRUCTIONS CAREFULLY

1. You have been given this question booklet and a separate answer sheet. The question paper contains 50 questions.

2. Do any necessary rough work in this booklet.

3. When you have chosen your answer, mark it on the **ANSWER SHEET,** not in this question booklet.

## HOW TO USE THE ANSWER SHEET

4. Use an ordinary pencil only.

5. Make sure you have written on the answer sheet.

**YOUR INDEX NUMBER**
**YOUR NAME**
**NAME OF YOUR SCHOOL**

6. By drawing a dark line inside the correct numbered boxes mark your full Index Number (i.e. School Code Number and the three- figure Candidate's Number) in the grid near the top of the answer sheet.

7. Do not make any marks outside the brackets [ ].

8. Keep the sheet as clean as possible and **DO NOT FOLD IT.**

9. For each of the questions 1-50 four answers are given. The answers are lettered **A,B,C,D.** In each case only **ONE** of the four answers is correct. Choose the correct answer.

10. On the answer sheet the correct answer is to be shown by drawing a dark line inside the box in which the letter you have chosen is written.

**Example:-**

**In the question paper.**

4. Change three thousand hectometres into kilometres

     A. 3
     B. 300
     C. 30
     D. 0.3

The correct answer is B. (300).

**On the answer sheet**

**4.** [A] [B] [C] [D]    **14.** [A] [B] [C] [D]    **24.** [A] [B] [C] [D]    **34.** [A] [B] [C] [D]

In the first set, the box with the letter **B** printed in it is marked.

11. Your dark line **MUST** be within the brackets.

12. For each question **ONLY ONE** bracket is to be marked in each of four brackets.

This question paper consists of 8 printed pages.

1. Write **9020406** in words.

   A. Ninety million twenty thousand four hundred and six.

   B. Nine million two thousand four hundred and six.

   C. Nine million twenty thousand four hundred and six.

   D. Nine million two hundred thousand four hundred and six.

2. Round off **6078563** to the nearest ten thousand.

   A. 6000000

   B. 6080000

   C. 6070000

   D. 6079000

3. What is the place value of digit **5** after working out $7 \div 8$?

   A. Ones

   B. Tenths

   C. Hundredths

   D. Thousandths

4. Which one of the following numbers is divisible by **11**?

   A. 924711

   B. 527620

   C. 320793

   D. 435854

5. Work out **half** the value of : $7^2 - \sqrt{625}$

   A. 14

   B. 24

   C. 37

   D. 12

6. Calculate the area of the shaded part in the figure below.

   A. 74cm²

   B. 120cm²

   C. 90cm²

   D. 86cm²

7. What is the next number in the pattern?

   **10, 12, 15, 20, 27,** _____

   A. 36

   B. 32

   C. 38

   D. 35

8. Nine schools received **34083** computer tablets. They shared them equally among themselves. How many tablets did each school receive?
